CORRESPONDENCE relative to increasing
the height of the floors of No. 21, East Street,
was laid on the table at to-day's meeting of the
Sanitary Board.

THE GOVERNMENT ANALYST, in his
report for November, states that the water
services for Kowloon, Tsimshui and Pok-fu-fam
are of excellent quality.

PLANTING THE THISTLE.-A small party
of Scottish farm hands is sailing to settle on
Government lands in the Orange River Colony,
and further parties will follow shortly.

THE CAPTAIN OF THE STEAMER

SAMBIA, from Hamburg, reports the death

of two Chinese firemen on the 17th and 24th ult.,

from beri-beri. They were buried at sea.

KILLING THE GOOSE.-According to an
exchange, the increased tariff had reduced the
Australian imports from Japan by 25 per cent.
within two months from the date of its enforce-
ment.

A BIG DIVIDEND.-The dividend of the
Standard Oil Company for the year 1901 is at
the rate of 48 per cent. Mr. J. D. Rockefeller
will receive 19,200,000 dollars gold (£4,000,000)
as his dividend.

NATIVE EDUCATION.-There are now 813
American teachers at work in the Philippines,
besides 200 soldiers detailed for similar work.
The natives are reported to be showing great
eagerness to learn English.

A "FAULT" REMOVED some time ago
from a section of the Eastern Extension Tele-
graph Company's cable was found to contain
a shark's tooth firmly embedded in the core of
the cable, although this is protected by the
usual sheathing of thick iron wires.

A BRITISH BLUEJACKET on the gunboat
Starling, tender to H.M.S. *Danbary*, the Clyde
guardship, is stated to have inherited a fortune
of £500,000 by the death of an uncle in the
Midlands. The fortunate sailor has been seven
years in the Navy, and is a comparatively young
man.

THE R.A.M.C.-The Advisory Board to the
Army Medical Service is:-Surgeon General
Taylor, Chairman; Surgeon-General Keogh,
Vice Chairman. The other members include
experts in tropical diseases and sanitation; re-
presentatives of Scotland, Ireland, the War and
India Offices, and Mr. Frederick Treves.

A STEAMER SEIZED.-A steamer, which
had been rearranged to carry 500 to 600 men
and was starting ostensibly on a pleasure
cruise, firstly for Hamburg, has been detained
in the Thames and searched. It is stated that
four field guns, and a quantity of saltpetre and
charcoal and tinned meat was found on board.

ASSAULT ON A LADY.-Calcutta, Novem-
ber 22nd.-An European driver, named Radford,
is being tried for criminally assaulting a Eu-
ropean lady while travelling on the Bengal-
Nagpur Railway from Bombay to Calcutta.
The lady was asleep. The accused threatened
to kill her and then outraged her. The accused
was arrested at Rhaugpur. He has been released
on bail for Rs.500.

LYDDITE FOR THE EAST.-Capt. Ben-
son, of the Royal Artillery, an expert on
lyddite, was expected at Colombo on the 28th
ultimo by the chartered transport *Malacca*,
which is bringing out R.A. reliefs from home.
Capt. Benson is to inspect the magazines at
Colombo and other British possessions in the
East, with a view to the storage of lyddite, the
use of which is to be extended to the East.

A NEW MILK ADULTERANT has been dis-
covered in use by the dairy inspectors in the
United States. It is called viscogen, and is
composed of sugar, lime, and water. It has
the effect of making milk appear richer than it
is, as the lactic acid in the milk turns the lime
to a thick, white substance that assimilates with
the milk, improving its looks without injuring
its taste. Guess, we can do without it in
Hongkong!

NEW MILITARY DECORATION.-It is
stated that the idea of the establishment of a
military decoration which shall partake more of
the character of the Iron Cross of Germany
than of the Victoria Cross has been commended
itself to King Edward. The Iron Cross of
Germany can be bestowed on the field of battle
by generals commanding army corps, and men
can be recommended for it by their captains on
the day of combat.

WALKING ROUND THE WORLD.-The
profession of the tramp has been elevated to
the dignity of a sport and there seems to be a
large number of persons anxious to wear out
their boots in walking round the world. The
latest individual who is seeking fame in this
direction is Mr. L. Stremmel, a young German
who has just arrived in Bombay. He has had
an exciting journey so far and upon his arrival
at Hongkong in February next we shall have
something more to say about him.

THE SINGAPORE VOLUNTEERS.-The
annual camp at Keppel Harbour of the Singa-
pore Volunteer Artillery and the Singapore
Volunteer Rifles commences on Wednesday,
February 5th, 1902, and ends on the following
Monday. Arrangements are being made for a
Government launch to take the men daily to
and fro, in order that those who have to attend
office on the days that are not holidays may do
so and yet be in camp for the night to join the
early morning and evening parades.

WHO WAS HE? An old local identity who
had a romantic past has just passed away, says
the *Strait Times*. He went by the name of
"Joe Pahang," and never could give any par-
ticulars of his early life. He was found at
Pahang and brought to Singapore a great
many years ago and was believed to be of
European parentage. He was supposed to
have been taken by pirates when quite a child.
He had a knowledge of much of the local
history of Singapore from its early days. "Joe
Pahang" was wonderfully active for his age,
which was believed to be close on 90 years at
the time of his death at the General Hospital.

TIGER-TAMER MAULED.

The tiger-
tamer of Harmsen's Circus, Gus Burns, was
mauled on the night of the 19th ultimo at Ran-
goon. He had a narrow escape. He refused to
jump a flaming bar, and attacked the tamer,
who was thereupon removed to hospital. It is
only quite recently that Burns had a similar
experience in Java.

VICTOR HUGO.-The anniversary of the
birth of Victor Hugo, the famous poet, will be
one of the great days of France next winter.
The Council of Ministers on the 5th ultimo
decided to celebrate it officially. The old home
of Victor Hugo in the Place des Vosges is to be
opened as a Hugo Museum and a colossal
monument to him will be unveiled in the Place
Victor Hugo.

AN ENTERTAINMENT is being given on
Saturday evening in the St. Patrick's Club in
aid of the funds of that Institution. An excellent
programme has been prepared, such names as
Messrs Viggers, Simmers, Oxberry, Ward,
Burgess, Burnett, Wallace and Dannenberg
being among the list of artists. The programme
will commence at 9 p.m. sharp, doors to be
open at 8.30 p.m.

OFFICER'S WIFE DISGRACED.-Mrs.
Ross, wife of a military officer stationed at
Mandalay, has been sent to prison for three
months by the Magistrate there, on a charge
of cheating with respect to a piano purchased
from Messrs. Misquith & Sons on the hire-
purchase system and which the accused sold to
another after paying two instalments. The piano
was returned to the plaintiffs.

THE MEDICAL OFFICER OF HEALTH
states that he has examined the whole of the
animals in the Wong Nei Cheong Dairy Farm,
and they are now free from Foot and Mouth
Disease. Twelve cows and one calf contracted
the disease; the calf died and a buffalo cow died
of injuries contracted by breaking loose when
convalescent from the disease. As soon as the
place had been thoroughly disinfected it might
be declared free from infection.

THE MORTALITY STATISTICS for the
week ended 23rd November showed that for
the British and Foreign community of the whole
colony, the death rate was 32.6 per 1000 per
annum as against 37.7 for the week ended the
30th November, and 17.1 the corresponding
period of last year. Including the Chinese
population the figures were 17.2 for the week
ended the 23rd ultimo, and 17.0 for the suc-
ceeding week, as compared with 23.2 the
corresponding period of last year.

BANGKOK ENJOYS, it is said, the advan-
tages of an electric light plant and of an electric
tram line six miles long, and is now laying a
second line of equal length. These are all
private enterprises. The price of the two
plants already in operation is fairly good, and,
together with the introduction of the new tram
line, they mark a decided advance in the
development of the city. The telephone
system of Bangkok is decidedly bad. It is
owned by Government which works the wires
inefficiently.

THE CONCENTRATION CAMPS IN
SOUTH AFRICA.-It is an "undoubted fact
that the mortality, particularly among children,
has been very heavy in the camps, says the
Pioneer, but if Boer mothers decline to wash
their babies more than once a week, or them-
selves more than once a month, the Imperial
Government cannot in fairness be held re-
sponsible. Other ladies, who have seen as much
of the camps as Miss Hobhouse, say that every-
thing is done that could reasonably be expected,
and this opinion is evidently borne out by the
medical reports printed in the blue-book now
published. The stories about the starvation of
the Boer women and children have never been
established, though it is on record that in one
camp where there were complaints of scanty
rations, the Boer women were found to be
sending out large quantities of provisions to
their countrymen in the field.

VICTORIA REGATTA.

FIRST DAY'S RACING.

The forty-fourth Regatta in connection with
the Victoria Recreation Club commenced
yesterday. The weather was somewhat cloudy
and at one time rain seemed imminent, but
fortunately it kept off and left no room for
grumbling. A grand stand had been erected
by the side of the club house and both this
and the promenade, bordered by a row of
flowers, formed excellent accommodation for the
fair number of visitors who availed themselves
of the opportunity thus offered of witnessing
this magnificent, though somewhat neglected,
pastime. The Regatta had been an annual meet-
ing up to last year when the typhoon did so much
damage to the Club's property that the committee,
who could not see their way to have all prepara-
tions ready before January, decided to postpone
the meeting for a season. The water was quite
smooth and with a moderate wind blowing up
the course there was nothing to prevent good
time being made in the rowing races.

The principal event of the day was the Chair-
man's Challenge Cup for which there were four
entries. The start being given, *Shamrock*,
stroked by A. A. Alves, got to work at once
and kept the lead for the first quarter mile,
but *Rose*, who were pulling a strong steady
stroke, passed them and taking the lead kept it
right up to the winning post. *Shamrock* seeing
no chance of coming in with the first three gave
up half way. The Ladies' Prize also created
much enthusiasm, being well contested and
finishing with a very popular victory for the *Rose*.
After this race all assembled in front of the

grand stand to witness the pleasing ceremony
of Miss Hutchings presenting the prizes to the
winning crew. Mr. F. W. White, the Acting
Honorary Secretary of the Club introduced the
crew to Miss Hutchings and the prizes having
been distributed, Mr. E. Herbst in handing
Miss Hutchings a beautiful bouquet decorated
with the V. R. C. colours, thanked her for
giving them the pleasure of her company at the
Regatta and hoped that she would see the
same crew of Hongkong boys win the prize
next year. Three cheers and a tiger were then
given for Miss Hutchings and afterwards for
the winning crew.

A very even start was made; at the end of the first quarter mile the *Rose* forged ahead, closely followed by the *Shamrock*, *Thistle* being last, no doubt owing to their getting in wash of the Police pinnace going alongside. Putting on a spurt however *Thistle* overtook the first two boats and a good race was the result. At the commencement of the last half mile the crew of the *Rose* appeared to be done but they pulled themselves together and maintained their lead and eventually crossed the winning line one length and a half ahead of the *Shamrock*, who beat *Thistle* by three quarters of a length.

Time 7 min. 0 sec.

HARBOUR POLICE: open to the Chinese members of the Harbour Police; to be rowed in the Service boats; distance, one mile; Entrance, 50 cents; first prize \$4; three boats to start for two prizes.

" " " " " " H. W. Sayer 5

Of the six entries for this race five started. An excellent start was made, but Sayer was soon left behind and Holmes and Tata, obtaining a little headway on the rest, succeeded in increasing the distance until it became a race between the two. Tata, who was pulling a strong sweeping stroke, gradually forged ahead of Holmes and beat him easily by 4 lengths. Rapp came right across the course from Station No. 6, to Station No. 1 and finished third (which place should have been taken by Mackie, who was then paddling in the middle of the harbour).

Time 5 min. 21 sec.

Some time elapsed before the boats could be got in line and when the gun was fired the *Leek* was about half a length ahead of the other boats. The *Shamrock* soon overhauled her, however, and won easily. The *Rose*, which was some way behind, crossed the line by accident; no other boat finished. The *Leek* should have been 2nd.

THE AMUR MASSACRE AND THE BOER WAR.

A correspondent of a home contemporary, writing from Kieff last month, said:—

Shortly after the truth of the massacre of the Chinese natives in Blagovestschensk by Russian troops last Autumn became publicly known to all Europe, and was demonstratively confirmed and proved by a number of independent eye-witnesses, as was by the tacit admissions of the Amur authorities themselves, it was officially announced that a rigorous investigation of all the circumstances of that event would be subsequently instituted. In a half-hearted way, the leading Metropolitan journals affirmed at the time that such an inquiry was necessary to the honour of the Russian Army.

As a matter of fact, there was never any kind of doubt or mystery as to the personality of the prime author of the massacre. The Russian General who issued and his subordinate officers who executed, the order for the indiscriminate butchery of the Chinese population—men, women, and children—to the number of about seven thousand, were perfectly well known to the Russian War Office. They were not only never called to account, but have since been promoted, decorated, and publicly thanked in the name of the Tsar for their unwonted zeal. There was never the slightest intention of holding a court-martial or of punishing the guilty authors and executors of one of the blackest of the many crimes which have sullied the name and fame of the Russian Army in almost every war which this country has waged, from the days of Suvaroff down to the massacre of the Poles under Muravieff, and of the Turcomans at Geok Tepé; and, lastly, to this crowning infamy at Blagovestschensk. And yet, week in, week out, for the last twelve months, the St. Petersburg Press has never desisted from its charges of gross inhumanity against the British officers and troops in South Africa. In this respect, the effrontery of many of the more prominent of the Russian political journals has no parallel in European journalism, not even among the most rabid of the French Nationalist organs.

As indirectly bearing upon the Blagovestschensk affair, I may mention that, a few days ago, I had some conversation with a Russian General on the subject of the protraction of the Boer War. This officer, whom I know to be personally a humane man, expressed his utter surprise at the "extraordinary patience, forbearance, and misplaced humanity" of the British commanders in South Africa. "Were a Russian Army dealing with the obstinacy of the Boers," he said, "we should have made a clean sweep of them many months ago, without pausing to consider the means or morality of our procedure." But, I objected, that would be contrary to the observances of civilised warfare. "Just so," said the General, "but the observances of civilised warfare depend, with us at least, very much upon the circumstance of the particular war in which we may be engaged. If you glance back through our military annals, you will find that we have always adopted the same drastic method of delivering a coup de grace to a stubbornly obstinate enemy, I do not defend the morality of the method, although it is occasionally the more humane way of putting an end to a desultory and destructive, and on the enemy's part, utterly

hopeless war. I merely mention the fact in order that you may estimate at their proper value the Russian Press comments on the Boer War of which you complain.

THE G. O. M. OF THE P. & O.

"Quite a singular comparison," writes a London correspondent of the *Indian Import and Export Trades Journal* "may be drawn between the careers of the Great Clive and of Sir Thomas Sutherland who has just been obliged to confess seven and sixty years of strenuous life. Each of them started on the lowest rung of the ladder of life: Clive was an invoicing clerk in a branch office of the John Co. 'Tom' Sutherland was an office boy in a branch of the mighty steamship company over which he is now supreme. Each made the East, and India especially, the field of his labours. And it may fairly be said, without fear of exaggerating, that nothing could have more fully consolidated and perfected Clive's work than the efficiency and success of the splendid fleet of 60 steamships over which Sir 'Tom' rules.

"And, indeed, that efficiency and success are due to him. When, from the humble position of an office boy, the Scotch lad raised himself to the comparatively responsible post of P. & O. agent at Hongkong, the company was in a bad way. The boats were old and ill-managed. Profits were eaten up by the unbusiness-like working of the fleet, and matters looked black indeed. It was at that time that some inspired director suggested recalling the young Hongkong agent and transforming him into a member of the board. So 'Tom' Sutherland, the quondam office boy, came to sit in the board's room in Leadenhall street.

"From that day, some thirty years or more ago, the name of Sutherland has been almost synonymous with the P. & O. Under his guardianship the company, beginning with antiquated paddle-wheel steamers, has had a quarter of a century of ever-increasing prosperity and efficiency, till to-day it holds perhaps the highest position of all steamship companies in the world, as it certainly holds the keys to British India; while its annual receipts amount to more than three millions sterling.

"A fine record, in truth. Clive made his Company; Sutherland has made his. But Clive's work would have been useless without a P. & O. And Sutherland is an enthusiast. There lies his secret. He has always brought to his work a keen love for his fleet and the great purposes it serves. A born administrator, he has ever satisfied himself with nothing less than the most minute supervision of all the countless and intricate details of the fleet's working. Among the employees of the Titanic Company it is jokingly said that Sir 'Tom' would miss a cargo sack if it was moved."

H.M.S. "AMPHITRITE" TO CALL SHORTLY.

The new first-class cruiser *Amphitrite*, which has only just returned from the Mediterranean, whither she had been dispatched to carry reliefs for the battleship *Illustrious*, has been selected for further troping service. Her next duty of this nature is stated to be a voyage to Hongkong for the purpose of taking out new crews for the *Alacrity* and *Snipe*, which are to be paid off and recommissioned on the China station. The *Amphitrite* has never yet served a foreign commission, but has been employed at naval manœuvres. She is a four-funnelled cruiser of 11,000 tons displacement, and about 21 knots speed; four of her sisters, i.e. the *Argonaut*, *Andromeda*, *Diadem*, and *Niobe*, have been in commission for some time, the latter two at present acting as escort to the *Ophir*. These four all Belleville boiler ships, and appear to be doing good work, in spite of the evil forebodings of the Waterbury Boiler Committee. The *Amphitrite* was "never sick nor sorry" during the naval manœuvres, and has acquitted herself well on her recent trip to the Mediterranean and back. I am glad to say that I continue to hear good accounts of the *Argonaut* and *Andromeda*.—*Globe*, Nov. 1st.

EASTERN EXTENSION TELEGRAPH COMPANY.

The directors' report of the Eastern Extension Australia and China Telegraph Company states that the gross receipts for the half-year ended June 30 last have amounted during that period to £346,336, against £313,226 for the corresponding half-year of 1900. The working expenses, including £28,338 for maintenance of cables, absorb £115,781, against £108,660 for the corresponding period of 1900, leaving a balance of £230,555. From this is deducted £6,908 for income-tax, £6,400 for interest on debenture stock, £2,048 for expenses in connection with the new issue of shares, and £175 for subscription to the National Memorial to the late Queen Victoria, leaving £215,023 as the net profit for the half-year. Two quarterly interim dividends of 12 per cent. each, amounting to £75,000, have been paid for the half-year, leaving an available balance of £140,023, from which £121,000 has been transferred to the general reserve fund and £19,023 carried forward. During the half-year under review, the company, in conjunction with the Great Northern Telegraph Company, duplicated the Taku-Chiefou section of the international cables which they established to the north of Shanghai in the autumn of last year. Partial renewals of the cables between Singapore, Malacca, and Java were also carried out during the half-year, and the cost, amounting to £7,870, has been charged against the general reserve fund. The company's expenditure on account of the Cape-Australian cable up to June 30 amounted to £153,241, of which £125,137 was debited to the general reserve fund last year, and the balance of £28,104 is charged against the fund.

OWING to the insufficiency of accommodation in the present building and the increasing demand for admission, it has been found necessary to extend the wings of the main building and to enlarge the Chinese department by an additional storey with two wings. The estimated cost will amount to over \$15,000. To cover these expenses we Appeal to the liberality of all friends of Education. The establishment has been in existence for the last 25 years and is open to all classes. Much of the clerical work of the city is carried on by its past pupils. As this is the first time we have applied for assistance we expect a generous response. The names of our most liberal Benefactors will be inscribed upon marble tablets, as a lasting testimony of their generosity.

with Hankow, the great interior city and commercial centre already described. This line, which is about 600 miles in length, passes through a rich and important agricultural section, having a population equal to that of the United States, and at its centre taps an important iron and coal area. The direction of the proposed line is almost due north and south, and while it practically touches the seaboard at its southern terminus, where it reaches the Yangtze, at the north is several hundred miles interior thus bringing into connection, with the great port of Canton, the products of the Upper Yangtze Valley. At Hankow the proposed American line will connect with the proposed Belgian line, which reaches Peking, thus placing in direct communication the capital of the Empire at the north, the great commercial centre, Hankow, in the interior, and the great producing centre in the western interior, with the great seaport at the south, Canton. This concession was granted to American capitalists in April, 1898, under an agreement executed after due imperial sanction by the present Chinese Minister at Washington.

In the extreme south of China, French interests are proposing sundry railway lines to connect their ports and navigable rivers of Tonkin with the cities and provinces of southern China. These proposed lines not only connect the French territory of Tonkin with the treaty ports of Mengtze, Wuchow, and Pakhoi, but also the important points of Yunnan, Nanning, and the navigable waters of the West River, which form a connection with the port of Canton and the railway lines that are to centre there, and thus give connection with the great railway system of China.

Lying several hundred miles west of the proposed American line is a British line to connect the province of Szechuan in the west of China with Canton and Hongkong, Szechuan is the largest, most populous, and perhaps the most productive of the provinces of China, being an elevated tableland lying at the head of navigation on the Yangtze, which section is quite similar to that of the Upper Mississippi in our own country. This proposed British line connects Chongqing, the capital of Szechuan, with Wuchow on the West River, which has recently been opened to commerce, and from which point traffic will reach Canton either by the West River or by an already projected line from Wuchow to Canton. This proposed British line connecting Szechuan with the lines which reach Canton is about 600 miles in length.

Another extremely important British line proposed differs entirely from any of those already described, in the fact that it is an effort to connect China and her railway systems with the railway systems of British India. This bold project is now to extend the existing railway line from Mandalay, in Burma, to the Chinese border at Kunlon; Ferry. From that point it is intended to build a British line north-eastwardly into the Chinese province of Yunnan and to the city of Yunnan itself, and thence farther north-eastwardly to Chungking, in the great province of Szechuan, to the head of navigation on the Yangtze. This proposed line would cross the British line connecting Szechuan with Canton, thus not only putting the railway system of Burma into direct communication with Canton, but also bringing it into communication with the head of navigation in the great Yangtze Valley, whose commerce is looked upon as the most important of that of all China. While this project of tapping southern, western, and central China by a connection with the Burma and Indian Railway systems necessarily encounters many serious obstacles, because of the character of the territory through which the connecting lines must pass, it is one of great importance and almost startling in its conception and possibilities, since, if successful, it would bring the existing railway system of India, having a total length of 25,000 miles, into touch with the proposed railway system of China and connecting through China with the great Russian trans-Siberian road, thus giving a direct and connecting railway line from St. Petersburg eastwardly through Russia and Siberia, southwardly through China, and again westwardly into and extending through British India.

The cost of these proposed railway lines in China will be, if carried out, an enormous sum. The lines constructed up to the present time have been built under the control and at the expense of the Chinese Government. The recent concessions proposed to permit the construction of lines by capital and organizations composed of residents of other countries. The funds for this purpose are in most cases to be secured by mortgage upon the railways thus created, the disbursement and future management to remain in the control of the foreign lenders during the term of the mortgage, but the lines themselves, after the mortgage lien is paid, are in most, if not in all, cases to become the property of the Chinese Government. Thus far efforts of foreigners to obtain a share of stock interest in addition to the mortgage lien, have usually been unsuccessful, though in many cases the length of time for which the loans are to run and the control of the lines remaining in the hands of those furnishing the funds may be considered as approaching an equivalent to ownership, so far, at least, as the present generation is concerned. In the American contract, an issue of debentures is permitted which, to a certain extent, may participate in the prospective profits of the enterprise, and in the Belgian contract those supplying the funds are to participate in the profits during the thirty year's term in which the loan is to run before payment. That the attention of the Chinese Government is to finally and absolutely control its railways is further evidenced by the fact that in its agreements with those proposing to construct lines it requires that schools of instruction for Chinese in the

construction and management of railways shall be established, and that a certain proportion of the employees of the road shall be natives and citizens of the empire, thus providing for the education in railway construction and management of its own people by the time that the system of roads now proposed shall revert to the direct control and ownership of the Government. A series of regulations for railways and mines, issued in December, 1898, requires that "in all cases every endeavour must be made to have the Chinese proportion of the capital of such enterprise the greater, and there must be a proportion of at least three-tenths of the shares owned by the Chinese. Sanction will not be given in cases where all of the money is foreign." The regulations further provide that "the proportion of profits to be paid to the Government for railways will be four-tenths, and for mines 25 per cent., to the Board of Revenue." A requirement which seems likely to prove, to say the least, embarrassing to railway enterprises which have not already secured concessions.
